COOPERATIVE PROJECT AGREEMENT
HEALTH FACILITY IMPROVEMENT PROJECT
CITY OF SAVOONGA, ALASKA

PROJECT NO. AN 05-GF3**

DATE OF AGREEMENT:
April 2008

A. INTRODUCTION

Throughout this Amendment these entities are referred to as follows:

Norton Sound Health Corporation	=	NSHC
Alaska Native Tribal Health Consortium	=	ANTHC
Cooperative Project Agreement	=	CPA
Denali Commission	=	Commission

On Sept. 23, 2005, ANTHC and NSHC executed a CPA authorized by the Commission to perform the design and construction planning for a new subregional health clinic in Savoonga, Alaska.

The project was funded with \$250,000, via Denali Commission Financial Assistance Award No. 185-05, dated August 2005. NSHC has drawn \$202,233 from this award.

B. RECOMMENDED CHANGES

B 1. Changes in Funding

As a result of changing its business model for providing health services to Savoonga, NSHC has transferred development of the proposed clinic to the City of Savoonga. This Amendment rescinds the remaining balance of \$47,767, per Denali Commission Financial Assistance Award No. 185-05, Amendment No. 5, dated May 2007.

B 2. Revised Cost Estimate Table

Job Type	Scope of Work	Qty	Units	Unit Cost	Total Cost
					Denali FY05
M-DS	Design subregional health clinic	1	LS	\$202,233	\$202,233
Total Award					\$202,233

This document constitutes Amendment No. 1 to the CPA to perform the design and construction planning for a new subregional health clinic in Savoonga, Alaska. All other sections of the original CPA remain in effect as agreed upon and executed.

MEMORANDUM

DATE: September 2005

FROM: Heritage and Environmental Consultant

SUBJECT: Norton Sound Health Corporation for Savoonga Health Clinic, Environmental Review
Project No. AN 05-GF4

TO: FOR THE RECORD

Based upon proposed Federal funding for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) is required. The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with this phase of the project in consultation with applicable federal, state, and local authorities. An Environmental Review has been completed with respect to the proposed health facilities planning project.

FINDINGS

This environmental review finds that no further environmental investigation is necessary. It is recommended that the Denali Commission approves a determination of eligibility for categorical exclusion from the Environmental Assessment process for this phase of the project. Current Indian Health Service (IHS) policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for IHS categorical exclusions for certain projects. In particular, Section H, No. 4 allows for a categorical exclusion for projects to conduct "engineering studies and investigations including soil borings and test well drilling to gather data for the purpose of determining engineering feasibility and permit facility design." This project will complete such an investigation.

SCOPE OF WORK

This project will complete the design studies and construction planning for a new subregional health clinic in Savoonga, Alaska. No construction will be performed under this project phase.

The ANTHC agrees to comply with all applicable federal, state and local environmental laws, regulations, and requirements during all phases of the project, as well as obtain any necessary permits.

SUMMARY

With the scope of work outlined for this project, the ANTHC has completed the environmental review. If the scope of work is changed in the future, then the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.
